

# The first step to becoming an Engineer 4.0

## Grasshopper Fundamentals Training

Online training for Engineers

Grasshopper Fundamentals Training is not "just another course". It is a **complete career development plan** that has already attracted **600+ engineers from 62 countries**. Several weeks of expert knowledge will open the doors for starting programming in the AEC industry. Training consists of 13 modules, which include both theoretical knowledge and practice. In 8 weeks, I will teach your team everything the Engineers of the future must know to enter parametric world.

**This is how your company will benefit from GFT: I provide it ALL with:**

- ✓ New valuable abilities in the team that save time and money for the company
- ✓ Employees development, under the watchful eye of an experienced practitioner
- ✓ Competitive advantage, thanks to the ability to use innovative tools at work and operate them efficiently

- NO additional recruitment
- NO inconvenient logistics (I teach online)
- NO taking your employees away from their current projects (I require just a couple of hours of engagement per week)

### Who is behind all of this?

**Krzysztof Wojslaw**

Parametric Design Expert, Academic lecture, BIM Corner co-founder

## Price:

**299 EUR**  
per person
